VORPAL v5.0 Includes Support for GPU Computing
New capability allows VORPAL to leverage low-cost parallel processing

Boulder, CO – September 27, 2011 - Recognizing that new computing architectures are gaining acceptance for computational simulations, the newly released VORPAL v5.0.0 supports electromagnetic (EM) simulations on GPUs from NVIDIA that support CUDA v4.0. As an introductory offer, if you purchase a license of VORPAL between now and 01 March 2012, you will receive this optional module at no charge.

For more information on VORPAL, please visit <http://vorpal.txcorp.com>.
